RE: Claim Staking of the Mineral Rights for the Remington #1 - #4 Lode Mining Claims, Mineral County, Nevada

Dear Mr. Scoggins,

This letter summarizes the activities for the staking of the mineral rights on four federal lode mining claims known as the Remington #1 - #4 located in Mineral County, Nevada.

The Discovery and Corner Monuments have been established and the Lode Claim Mining Certificates have been properly filed with both the Mineral County Recorder's Office and the Nevada Bureau of Land Management, thus securing the mineral rights to the lands. Prior research determined that no competitive locators occupied the subject lands intended for the lode claims.

I trust you will find this report a complete and accurate record of the procedures in securing these mineral rights. If you have any questions or if you need further assistance, please feel free to contact me at your convenience.

Sincerely,
Advanced Geologic Exploration, Inc.

Charles P. Watson
President and Chief Geologist
California Professional Geologist #7818
