

## Golden Schneider #1

**±60 Acres**

**BLM CAMC #293698  
Plumas County Records #2008-0007954**

**Price: \$4,500**

Schneider Creek runs all year. These pictures were taken in October and show a pretty good flow. There are a number of gravel bars, pools and ledges that will provide many opportunities. Notice the the creek flows on bedrock in many of the photos. The snow usually melts off in early June.

High bankers will have a field day with all the opportunities adjacent to the creek. The pools are relatively shallow and air is not required to reach the bedrock. Hence, the required prospecting skills are recreational to intermediate. Advanced miners who like to tackle the smaller creeks will equally enjoy this claim's abundant opportunities, especially with all the bedrock exposures!

The Location Notice for the **Golden Schneider #1** placer mining claim has been recorded at the Plumas County Recorder's Office (see registered number above) and the Bureau of Land Management federal mining claim number is pending. It is a non-patented federal mining claim. Fees are current for 2012 and you will need to file appropriate paperwork to hold the property every year thereafter. Annual tax assessment on the property is approximately \$1.12/acre.

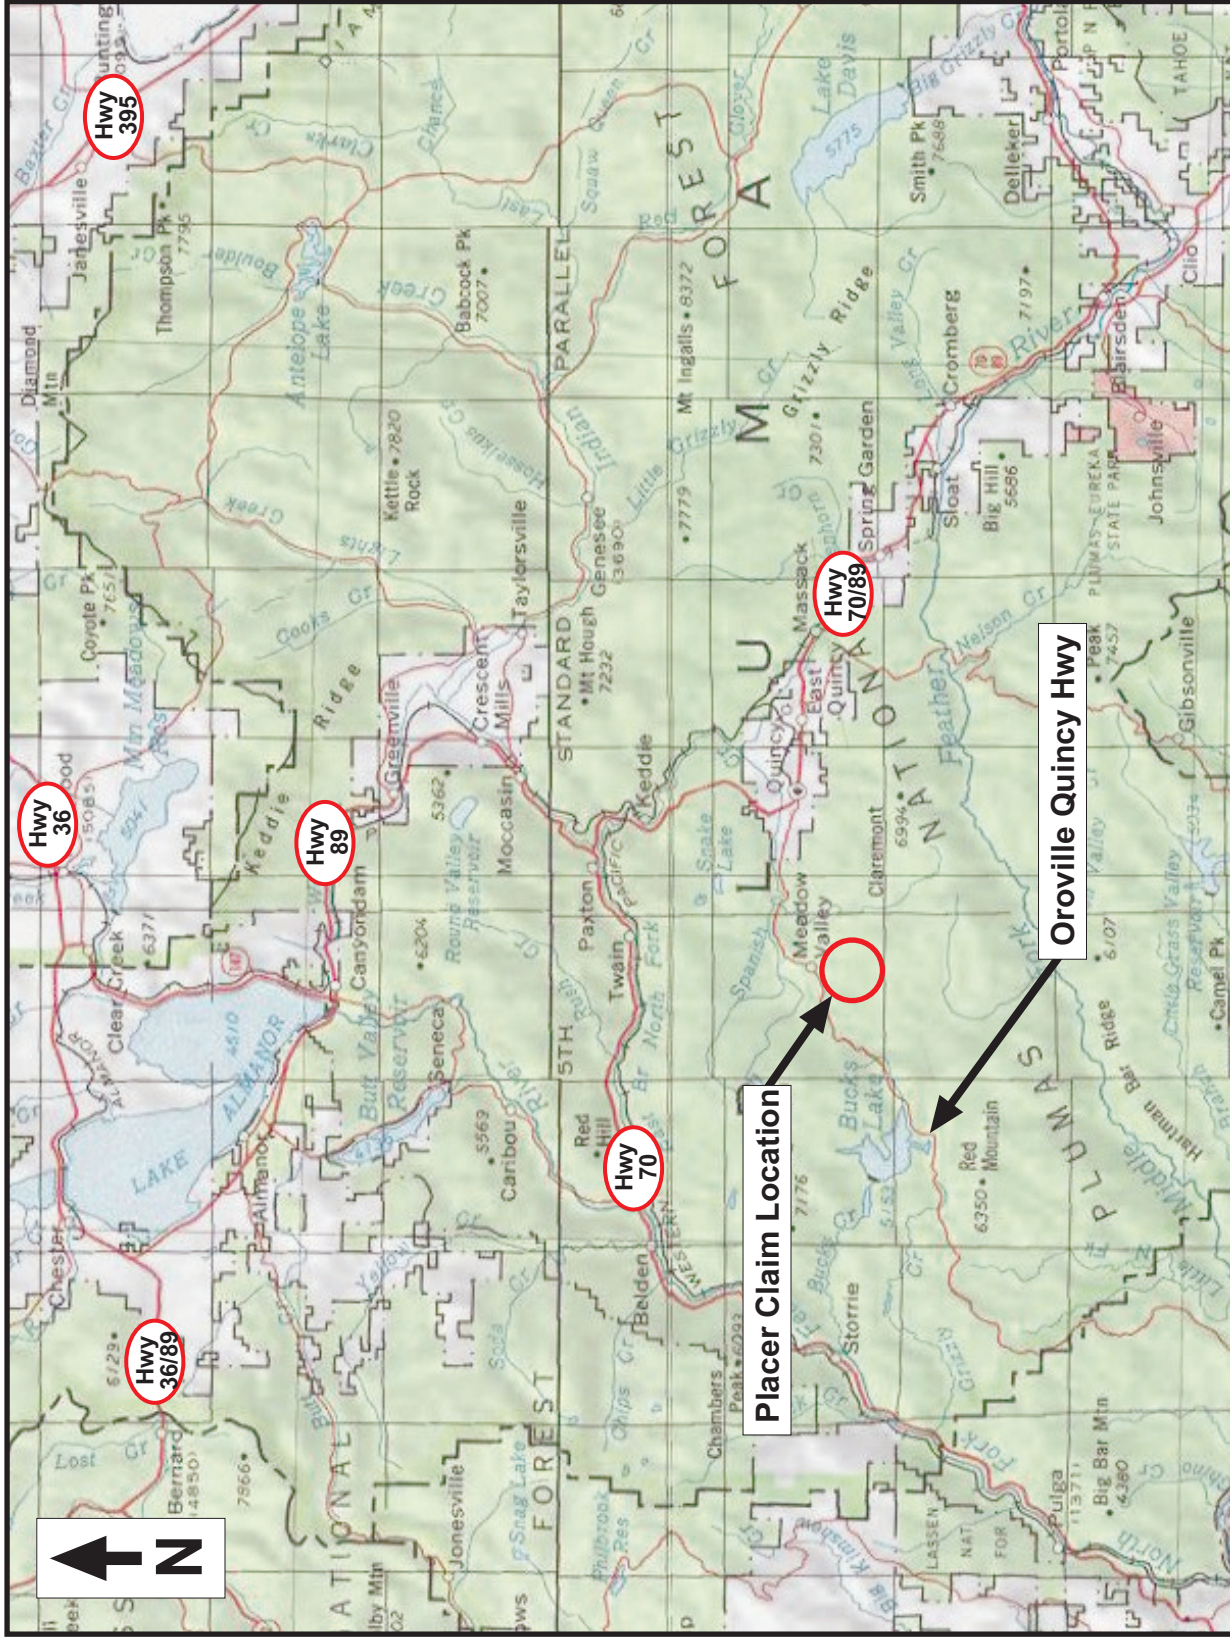

Advanced Geologic is a professional geologic consulting firm located in Chester, California. We not only sell quality mining claims, but we also help people work their claims. Our experience in resource evaluations, compliance and permitting and claim portfolio management allows our clients and buyers to go for the **GOLD**.
