Plumas County Records
#2008-0007952

The Melones Fault has been the source for **HUGE** pockets of gold not only here but elsewhere in Sierra Nevada Mountains. Other famous high-grade mines along this fault include the Sixteen-to-One Mine and more. This hot Bucks Lake granitic intrusion remobilized the gold and distributed it throughout the country rock in quartz veins. Hardrock mines are numerous surrounding this intrusion. Just over the ridge to the northwest is the Virgilia Mining District - one of the richest in California. Rich Gulch and [Rush Creeks](#) drain that portion of the fault. On the southern reach of the Bucks Lake pluton is the [Granite Basin \(Boulder Creek, etc.\)](#), which are also extremely rich in gold.

Spanish Creek Placer Mining Claims

**Price: \$3,000
or best offer**

Advanced Geologic is a professional geologic consulting firm located in Chester, California. We not only sell quality mining claims, but we also help people work their claims. Our experience in resource evaluations, compliance and permitting and claim portfolio management allows our clients and buyers to go for the **GOLD**
